PT Data Management Software
User’s Guide

For data transfer to a Personal Computer (PC).
For professional in vitro diagnostic use only.

### INTENDED USE
These instructions define the format and timing for data transmission from the PT Meter. Data transferred from the meter includes the Test Record Number, Patient ID, Date Format, Date, Time, INR, PT, Sample Type and meter serial number. The intended use is to provide information required to transfer data to an external computer with suitable PC software.

### SYSTEM REQUIRED
The following are minimum requirements for PT Data Management Software operation:

- **Operating System**: Windows 10(32 bit / 64 bit); Windows 8(32 bit / 64 bit); Windows 7(32 bit / 64 bit)
- **Processor**: Pentium 4-class processor or equivalent
- **Memory**: 512MB
- **Hard Disk Space**: 100 MB (depends on amount of data to be managed)
- **Connection Port**: Available USB port (USB to Serial port adapter accessory is available)
- **Display**: At least 1024 × 768

### MATERIALS REQUIRED
- PT Meter
- USB Cable

### DIRECTIONS FOR USE

#### Installing the PT Data Management Software and USB Driver

**Note**: Please be sure to install the PT Data Management Software under administrator’s privilege. The steps below show the driver installation.

1. Download the PT Data Management Software to your PC. Double click “PT Data Management Software_Setup” to start the installation process.
2. The Setup Wizard will display as shown below. Click Next >.

3. The License Agreement will be displayed as shown below. If you agree with the terms, select “I accept the agreement” option and click Next >.
4. The Destination Location will be displayed as shown below. Select a destination and click *Next >*. 

![Select Destination Location](image)

At least 21.5 MB of free disk space is required.

5. Select the Start Menu Folder screen which will be displayed as shown below. The default folder is "PT Data Management Software". It is suggested that default settings remain unchanged. Click *Next >*. 

![Select Start Menu Folder](image)
6. Select **Create a desktop shortcut**, then click **Next >**.

7. Before the installation files are installed, the screen shown below will be displayed. Click **Install** to continue the installation process. Click **< Back** to modify or review any of the settings.
The following screen will display the progress of the installation.

8. After completing the software installation, the following screen will be displayed. Click **Finish** to exit Setup.
9. Check the Computer Management of your computer, and the USB program will appear in the device list as shown below.
Check the Software and USB Installation State

If you install the software successfully, the PT Data Management Software and USB program will appear in Uninstall or change programs of the Control Panel as follows.
1. Select “PT Data Management Software” from the Program List to run the software, or double click the following icon on the desktop.

![PT Data Management Software Icon]

2. The PT Data Management Software screen will be displayed as shown below.

![PT Data Management Software Screen]
1. Use the USB cable to connect the PT Meter to a PC.

   **Note:** Please contact your local distributor for the USB Cable.

2. Run the PT Data Management Software.

3. Turn on the Meter by pressing the power button.

4. Press the **Download** button on the PT Data Management Software to transfer data to the PC.

5. The records transferred to the PC are shown as below:
6. Data will continue to transfer until all records are copied to the software window. The total number of records transferred will be shown on the bottom of the screen. A pop-up message will show on the screen when all the records have transferred to the PC. Click **OK**.

**Note:** Removing the USB cable from the PT Meter will stop the current data transfer automatically.

7. Turn off the PT Meter, or the meter will automatically turn off after 2 minutes of inactivity.
8. Press **Export Excel** to export the data shown in the screen window to an excel file, and then save it.

9. Press **Export Txt** to export the data shown in the screen window to a text file, and then save it.
10. Press **Clear Data** to clear the data from the screen window or press the **Download** button to clear the data and begin the next transfer.
Software Uninstallation

1. Go to the Start menu located on the bottom left corner of your computer screen. Select All Programs then PT Data Management Software. Click on Uninstall Software.

2. A message will pop up to confirm uninstallation of the program. Click Yes to completely remove the PT Data Management Software and all of its components.

3. The following screen will display the progress of the uninstallation.
4. Click **OK** to complete the uninstall process.
USB Driver Uninstallation

1. Go to “Uninstall or change a program” in the Control Panel and select the USB Drive as shown on the following screen.

2. Click Uninstall/Change to begin removal of the USB Drive, click Yes button as shown below.

3. The uninstall process has now been completed.
