

HLA-B27 Human Leukocyte Antigen B27 PCR Test Kit

Ankylosing Spondylitis (AS) is a type of arthritis that affects the spine. Statistics indicate that the presence of HLA-B27 is considered highly correlated to the disease of AS. The Promotor® HLA-B27 Human Leukocyte Antigen B27 PCR Test Kit is a qualitative PCR assay for the detection of HLA-B27 genes in human whole blood.

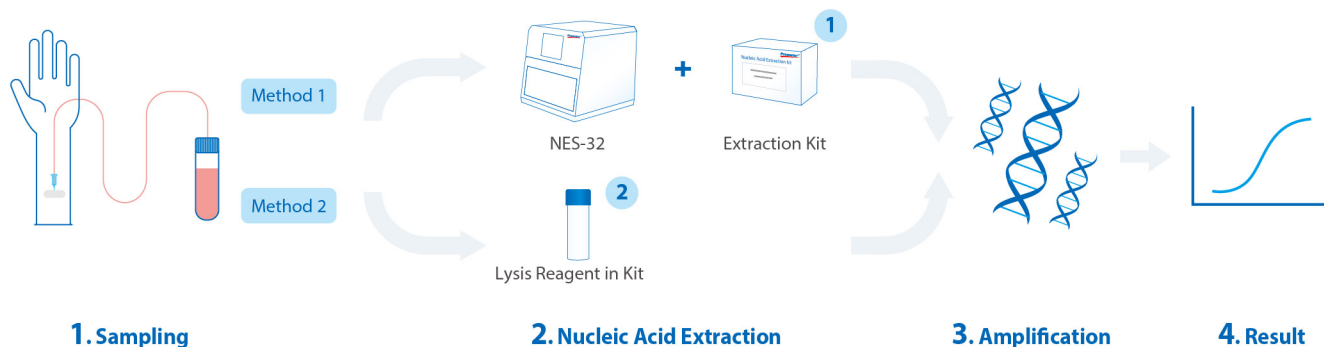

Test Performance

HLA-B27 Human Leukocyte Antigen B27 PCR Test Kit	Specifications
Package Size	32 tests/kit
Technology	Real-time PCR
Sample Type	Human whole blood
Genotypes	B2702, B2704, B2705
Limit of Detection	2.5 ng/μL
Specificity	100%
Precision	CV < 5%
Storage Conditions	-20 ± 5°C

Order Information

Product Name	Catalog No.	Package Size
HLA-B27 Human Leukocyte Antigen B27 PCR Test Kit	P131-1541	32 Tests/Kit

Workflow

*1. Automated extraction system can be used. It is recommended to use Promotor® NES-32 Nucleic Acid Extraction System and Promotor® Whole Blood Genomic DNA Extraction Kit manufactured by ACON
 *2. Nucleic Acid Lysis Reagent inside the kit

IVD

We also offer other diagnostic and medical products including:
 Blood Glucose and other meters, Lateral Flow tests, Urinalysis products, POCT products, Immunoassays and more.
 Contact us for worldwide distribution and custom manufacturing (OEM) opportunities.
